

Interesting times.....

Late 50's, early 60's

- USSR : launches Sputnik
- USA : test rocket explodes at
• Cape Canaveral
- USSR, USA and UK agree to stop testing
A-bombs for 3 years
- 1961 : USSR detonates A-bomb
- Western Europe : “ Cold war “ paranoia

Preparedness for the A-bomb drop in the Netherlands:

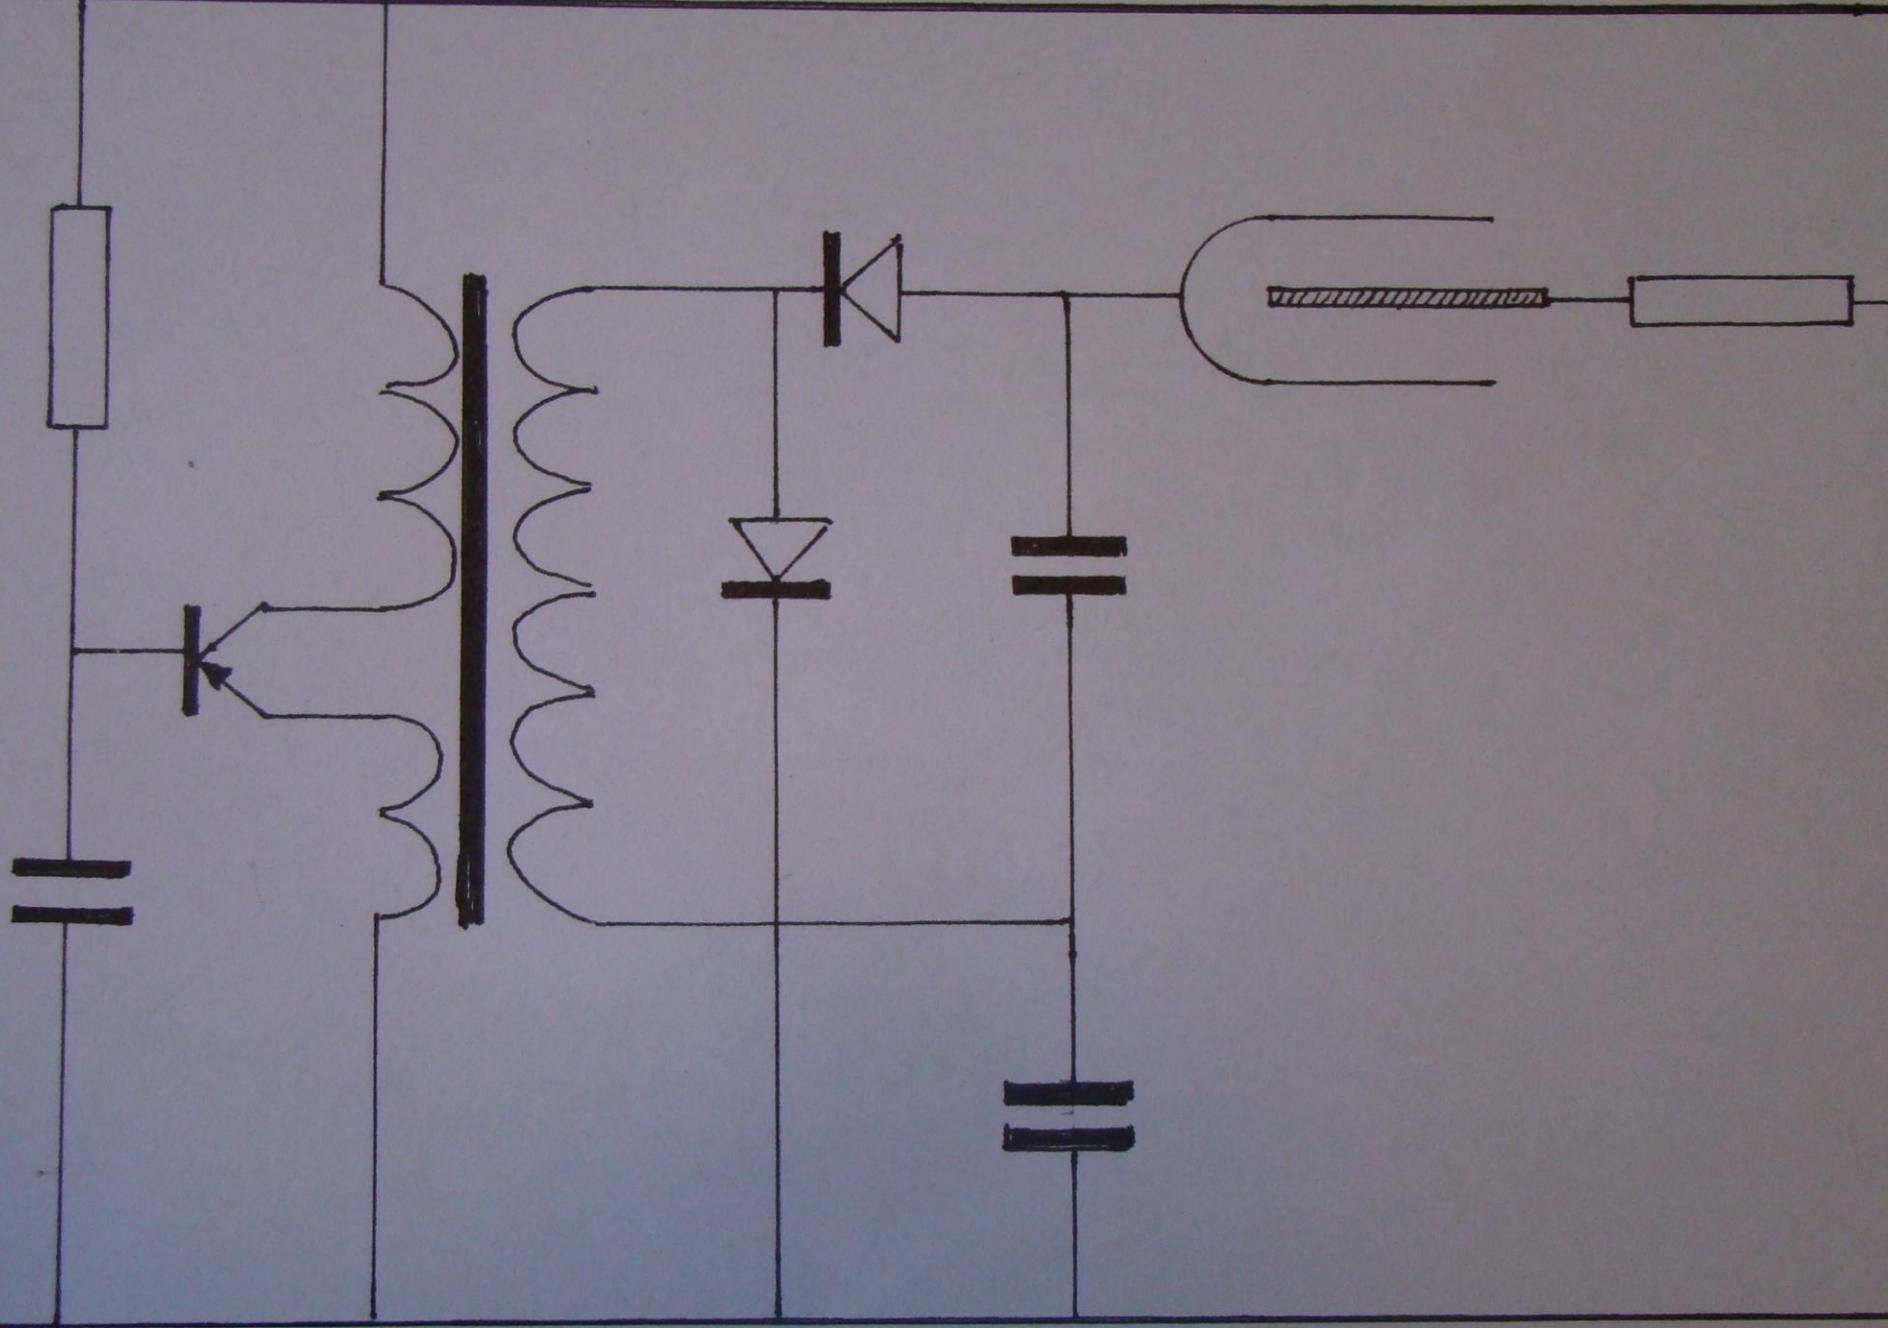

- Establishing shelters using existing buildings, i.e. parking garages, railroad stations, tunnels etc.
- Outfitting them with toilets, bedding, food, water and bicycles to provide power for air cleaning equipment.
- providing planning advise for private shelters

GEIGER MUELLER TUBE

P.S.

500 V

18504

Help Tube ID
= 33595

Country: Netherlands **Brand:** Philips; -
Eindhoven;
Netherlands

Tube type: **Geiger-Müller-**
 counter tube

[previous](#) | [next](#)

Identical to **18504** = ZP1400 = MX147

Base No base Wires only

Was used by Technology / Measurement

Filament -: No heater /

Description Halogen quenched beta and gamma radiation counter tube. 9mm diameter CrFe window. Also made by other manufacturers related to **Philips**.

Dimensions (WHD) 15 x 53 x mm / 0.59 x 2.09 x inch

incl. pins / tip

Weight 7 g / 0.25 oz
